PULASKI, TENN. FRIDAY MORNING, AUGUST 17, 1866

The Incendiary Speech at New Orleans. The following is Dostie's incendiary Mechanics' Institute three evenings preceeding the riot at New Orleans:

Dr. Dostie, in the course of his remarks on Friday night, said: "I want the negroes to have the right of suffrage, and we will give them this right to vote. There will kill during the war?" be another meeting here to-morrow night, and on Monday I want you to come in your power. I want no cowards to come. want only brave men to come, who will stand by us, and we will stand by them .-Come then in your power to that meeting, or never go to another political meeting in this State. We have three hundred thousand black men with white hearts. Also, one handred thousand good and true union white men, who will fight for and beside the black race, against the three hundred thousand hell-bound rebels, for now there are but two parties here. There are no copperheads now. Col. Field, now making a speech inside, is heart and soul with us. He and others who would not a year ago speak to me, now take me by the hand .-We are four hundred thousand, and can not only whip but exterminate the other party. Judge Abell with his Grand Jury may indict us. Harry Hays, with his posse commitatus, may be expected there, and the police, with more than a thousand men sworn in, may interfere with the convention, therefore, let all brave men, and not cowards, come here on Monday. There will be no such puerile affair as at Memphis, but if interfered with, the streets of New Orleans will run with blood!

The black race with nine hundred million are bound to rule the white race of three hundred million. The rebels say they have submitted and accept the situation, BY virtue of a venditioni exponas to me directed but want you to do the work and they will expess to public sale, for cash, at the court house county of Giles, at the court house in Polaski, on the do the voting; and will you throw over them 'the mantle of charity and oblivion'?

"We will ! we will !" was the unanimous response of the excited throng, to which Dr. Dostie vehemently replied: "No, by God! we won't. We are bound to have universal suffrage though you have the traitor Andrew Johnson against you."

As one single drop of black ink will tinge and polute a vessel of crystal water, so one little act of faithlessness may irredeemably poison a whole lifetime of the purest friendship and confidence.

PLANTATION HATS AND SHIRTS,

An ingenious Yankee in New Orleans has been engaged in making thread from the stalks of the cotton plant. It is very fine and strong, and looks very much like flax, being very soft and pliable. He proposes to make this thread into cloth, which he says will be as strong and durable as that made from cotton itelf. Forty pounds of thread can be made from one hundred and twenty pounds of stalk.

An old fellow in the neighboring town speech to a crowd of negroes in front of the | who is original in all things, especially in excessive egotism, and who took part in the late great war, was one day blowing in the village tavere to a crowd of admiring listeners and boasting of his many exploits, when he was interrupted by the question: "I say, old Joe, how many rebs did you

"How many did I kill sir? how many rebels did I kill? Well, I don't zactly know how many; but I know this much-I killed as many o' them as they did o' me!"
